---

August 3, 2009

All Franklin County radio subscribers and users,

During the next several weeks, Com Pros, Motorola dealer located in Chambersburg PA, will be contacting your agency to schedule a time to visit your location. The purpose of this visit will be to inventory any presently owned XTS1500/2500/5000 and XTL1500/2500/5000 radios as part of the flash upgrade project associated with the new P25 trunked radio system. Your cooperation and availability are essential. This inventory must be completed by August 15th in order to maintain Motorola's time line of the project. Motorola has assigned Com Pros to perform this survey, even if they are not your primary radio and service provider. Please accommodate their technicians with their research and information gathering.

Franklin County has negotiated discount pricing for these flash upgrades and your equipment must be inventoried to be included in this pricing. Final discount pricing will be calculated once the inventory is completed. Any questions, please contact me at the information listed below.

Bryan D. Stevenson, ENP
