

Proclamation #2011 - 06
Franklin County Environmental Conservation:

WHEREAS, the Commissioners of Franklin County recognize the importance of reducing the County's ecological footprint, conserving the County's environmental resources, reducing energy-related costs, and establishing an environmental conservation program that benefits both County operations and communities; and

WHEREAS, the Commissioners realize meeting energy requirements will call for innovation, perseverance, and self-discipline; and

WHEREAS, the Commissioners of Franklin County encourage our Employees, Citizens, Communities, and Businesses to take steps in reducing energy consumption and support our natural resources; and

WHEREAS, the Commissioners recognize working together to make a positive difference in environmental conservation strengthens our communities, improves our environment, and benefits future generations; and

WHEREAS, the County of Franklin shall be good stewards of the environment taking the lead in sharing available conservation resources and recognizing the success of creative efforts; and

WHEREAS, the County takes this opportunity to thank the Employees, Citizens, Communities and Businesses of Franklin County for their persistence in meeting the environmental needs, of our time; and looks forward to working together in reducing our impact on the Earth.

NOW, THEREFORE, be it resolved that the Franklin County Board of Commissioners adopt the Franklin County Environmental Conservation Program, to assist in meeting these challenges through Education, Resource Sharing, and Program Development anticipating a Positive Return on the Environment and Investment.

Adopted by the County of Franklin Board of Commissioners this 26th day of April, 2011.
